Address : Hertastrasse 12, 12051 Berlin, Germany

ABOUT ME

I'm a 32 years old senior full-stack software engineer from Slovenia currently based in Berlin. I love everything that has to do with web development, application development, architectural planning and mentoring. My experties are frontend frameworks such as React.js, Vue.js and Backbone.js. I'm also proficient building backends and APIs using Node.js on top of AWS stack (DynamoDB, Lambdas, serverless, Mongo...).

WORK EXPERIENCE

JAN 2019 - CURRENT

Freelance software engineer | Berlin area

myfitnessvideo.com, skill-yoga.com

myfitnessvideo.com - Migration of more than 200.000 users and their payment schedule preference to an entirely new and redesigned platform.

skill-yoga.com - iOS and Android app (react native) with backend API built from scratch. More information available on my LinkedIn profile.

FEB 2015 - DEC 2018

Senior software engineer, Tech-lead | Berlin

Fanmiles GmbH, Uplyft.com

Making sure the product vision was aligned with the architectural and infrastructural vision of the platform, I acted as an architect a team lead and an engineering manager with a hands-on approach. Frontend and backend engineer.

FEB 2014 - JUL 2015

Frontend Engineer | Berlin

VAMOS

I was responsible for the development of the website, newsletters and android hybrid app. I used Angular.js, Backbone.js, scss and coffeescript.

More information available on my LinkedIn profile.

Consultant at Spark Networks

April 20, 2018, Jens managed Miha directly

Miha was definitely one of my best hires ever. He is a hard worker, fast learner and an all-round talent. We worked together at Vamos & Fanmiles where he developed front-end, back-end, mobile apps and all sorts of services. He is passionate about SW development, a great communicator and was never hesitant to take ownership and pick up new challenges. No matter what you throw at him, he will get things done fast.
